

Just to let you know...

Maths

Maths this week has been all about co-ordinates, shapes and reflections. The children have been able to label their x and y axis, plot points in the first quadrant and reflect shapes. They worked hard identifying a variety of different mirror lines and how they would re-locate their shapes.

Curriculum Week

Next week is Curriculum week, based around the theme of Journeys, through books. From Monday til Thursday the children will be working in their houses and in subject areas including, English, Maths, Science and Out-door Ed. The children are very welcome to wear their house t-shirts and school uniform bottoms. On the Friday there is an opportunity to dress up as their favourite book character. During the week there will also be a Book Fair. It will be great fun!

Literacy

This week the children have been working hard learning how to use speech marks and all the relevant punctuation. They then moved on to complete their own Tin-Tin comic strip using speech in bubbles. After Curriculum Week the children will then develop this further, writing a Tin-Tin story demonstrating they can using all elements of direct speech accurately.

The children enjoyed our topic launch when they went around hearing about famous people connected with the Ancient Egyptian era. In the picture below they had to try and organise themselves in the correct order!

Spellings and Homework

**Information Adoration Sensation Preparation Admiration Inspiration
Decoration Speculation Improvisation Civilisation Pharaoh
Hieroglyphics**

Children will have brought home some maths work on reflection that can be completed by Wednesday.
