

Oak and Beech Class 21st November 2014

School Christmas Play

You should have received a letter about costumes today. If not come and see us!

The Sotongi tribe needs a red top/tshirt (House T shirts are ideal) and the Wanakeekee's a green tshirt/top. All children will need black tights/leggings/joggers.

Please name everything and bring to school by Monday 1st December.

What an exciting week we have had! First 'Old Bear' sent us a video message with some sentence challenges and then we have been on our trip to the Old Toy Museum. The children dressed up in Victorian costumes and played with lovely old toys. We learned what they were made of and played traditional childhood games such as 'Oranges and Lemons', cup and ball games, and a marble run. We were then taken to a real Victorian school room where we made paper hats, wrote on little blackboards and had to sit up very straight!

Teddy Bear's Picnic

Next week we would like the children to bring their teddies back in to school for a picnic! Please bring them on Friday.

Maths

This week we have been exploring 2d and 3d shapes. The children have been practising the vocabulary:

2d: side, corner, straight, curved

3d: edge, corner, straight, face, curved.

Can you find 2d and 3d shapes at home? Do they have curved or straight sides? How many of each? Which is the most common shape? Why do you think that is?
