

## JTLYK OAK AND BEECH

### Maths Corner

This week we have begun to learn about the very interesting concept of fractions! The children looked at carefully sharing tasty treats equally in two halves to make things fair. Some of us then worked at making four equal quarters. The children then thought about making one half of some even numbers and checking our answers.

**At home see if you can count up your cuddly toys and then make them into 2 equal groups. Can you tip out a packet of**

### Reading books and phonics

We have sent home extra reading books for the holidays and a 'Sound of the Week' activity so if you have some free time during the holidays why not spend a little time

Dear Parents,

We can't quite believe that it is nearly half way through Year One already!

This week we started off with an exciting DT day making our own moving puppets! We planned very carefully, thinking about the number of parts we would need for our fairy-tale characters and how we would fix them together. We drew, cut and adapted our puppets until we were able to use them to tell a story with our friends.

It was lovely to see so many children at our 'Bedtime Story Night'. We all enjoyed snuggling up together with hot chocolate and biscuits! Really well done to all the children who came along, had fun and looked so cute in crazy
