

'Mrs Armitage and the Big Wave'

We have had great fun this week writing the story. We focussed on sentence writing and use of adjectives.

Science

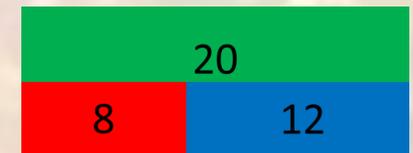

Inspired by Mrs Armitage and her need to find out which way the wind was blowing her surfboard, we decided to make wind socks. We tested them in the playground and were able to see which way the wind was blowing.

Help needed!

We need adults to come with us on our trip to the Farmer's Market! If you can come with us on **2nd October** please let Ruth know. We will leave school at 9:30am and return by lunchtime. We plan to have a tasty Mrs Armitage picnic in the afternoon.

Maths

This week we have been continuing to think about partitioning two digit numbers into tens and ones (units.) We have also used cubes to work out the bonds to 20 and related this to the bar model. As well as this, we have also started to think about using what we know to work out other facts (e.g. if I know $6+4=10$, I also know that $60+40=100$, $16+4=20$ etc.).

RE

We enjoyed learning about the hidden meaning of a new parable this week. 'The Lost Sheep' was the starting point for a very good class discussion and your children are so thoughtful and ready to share their ideas.

Homefun Book

Please make sure that you are looking out for the homework coming home in the Green Homework books each Friday. In addition to reading regularly, this is a really great way to support your child with their learning when they are at home. Please send the Green book back each Wednesday. Please do not feel as though you need to do every activity. We suggest you spend between 10—15 minutes on it so you have plenty of family time left too!
