

JTLYK YEAR ONE

Friday 28th April 2017

Maths Corner

This week we have been learning how to split numbers into Tens and Units using Numicon and Diennes materials. Eg 15 is 1 ten and 5 units.

Lumio

This is an interactive Maths resource that we will be using in school and our account includes free home access.

(a letter went home today about it with a password and login.) If you would like to have a go at using it we suggest that you try 'Addition Challenge.' Have fun!

Wild Place Helpers!

Please sign up if you are able to help us on Tuesday afternoons. We need 3 adult volunteers per class each week. We are hoping to do some water colour painting next week. Thank you !

Phonics

Thank you for continuing to do the Sound of the Week activities that support the hard work in school! It really does make a difference.

The children have really enjoyed their 'Run to Sochi' this week and those miles are mounting up!

We hope that you have a lovely long weekend and see you on Tuesday 2nd May.

Science/ English

This week we made 'bean diaries' and we are monitoring and recording the growth of our beans.

We had fun following the children's instructions exactly for how to plant a seed with some interesting and messy results!

The children then wrote the instructions very carefully in their best curly school joined up writing.
