Just to let you know...

Dear parents,

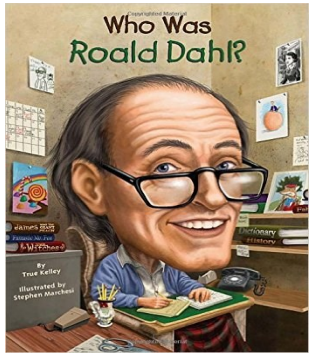
It has been another exciting week of learning in year 4 and the children have been working brilliantly. Thank you again for your hard work with making sure they have their homework books, reading journals and PE kit in school on the right days. We really appreciate it.

Have a lovely weekend.

James, Rachel and Sarah

English

This week the children have thoroughly enjoyed learning how to write a biography. They used the excellent research from their homework to build paragraphs. We talked about the key features of a biography and the importance of chronological order, third person, past tense, key events and information about the person. In addition, we ended our week writing a letter to the Science Museum to share the part we had most enjoyed and things we wanted to find out more about.



Maths

This week our focus has been on money and solving problems. The children have worked so hard on this and applied their knowledge of mental and written methods. We have also had some fun completing some puzzles and problems which required the children to work systematically to find possible solutions!

FLUFFY

Next Friday 2nd February is FLUFFY! If your child is doing an off site activity please could they bring their slip back ASAP. On FLUFFY Friday, every child needs to bring £1.

Spellings

Thank you for helping your child to learn their spellings.
The spellings for this week are below:

poisonous, dangerous, adventurous, famous, hazardous, mysterious, mountainous, nervous

Science Museum

I'm sure that the children's highlight this week was our trip to the Science Museum in London where we had an amazing time! We visited the Wonderlab, which only opened in October 2016; the children had an hour to experience the 50 different interactive exhibits, including friction slides, infrared cameras and magnetic sculptures. We also watched an excellent science show, 4R and 4S experienced explosions, while 4J saw electricity being passed through the human body. We would like to say a big thank you to those parents who were able to support us on the trip.

Spelling Book

A polite reminder that children need their spelling books in school on a Monday morning. This is so they can record their spelling test in the back of the book and complete an activity on the week's spellings too.

Homework

This week's homework is questions on measurement, which links to last week's learning. There is also an activity on Lumio which can be found in the My Lumio folder.
