

# Just to let you know...

## Phonics

This week we are going to be thinking about letter names rather than sounds e.g. 's' as in 'esss' rather than 'sssss' which is the sound. We will be singing the alphabet song, playing letter name bingo and all sorts of other fun games.

## Maths

This week we are going to be practising addition and writing simple number sentences e.g.  $2+5=7$ ,  $13+3=16$ . We will be doing lots of practical activities with minibeasts, ladybird spots etc. At home you could draw pictures of minibeasts e.g. 2 ladybirds and 2 butterflies and then write the number sentence e.g.  $2+2=4$  minibeasts altogether.

## Minibeast LEAP

This week we have had great fun finding out about the lifecycle of a frog. The children have been sharing information books, sequencing the stages of the lifecycle and writing lovely poems. We have shared a rather thought provoking story called 'Tadpole's Promise!' The children came up with fascinating, empathetic and funny comments. They have also re-told the story through pictures, thinking about the main parts of the story.

## Reception

## Hazel & Willow

### Cooking Corner

### Butterfly Shortbread
