

Year One

Beech and Oak

18th September 2015

Maths Focus

This week we have been thinking addition and using the + and = symbols when adding 2 lots of numbers together.

We used cubes and dice to add two numbers together and had a go at writing down our number sentences,

e.g. $4 + 6 = 10$.

Can you use pasta as counters to help you solve some addition problems this week? You could make some number cards and choose two to add together! Can you write it as a number sentence?

Maths next week

.. We will be learning days of the week and telling the o'clock times. Please talk to your child about an important o'clock time at home eg, bedtime/bath time etc and link this to the clock face.

Cooking Money

Thank you for the money received so far! We cook one or twice during each topic and ask for a donation of £5 to cover ingredients. Please pop your money in an envelope and give it to Sarah or Sheena. Thank you!

Dear Parents,

What a great week we have had talking about different animals. The children have practised writing on the line, using finger spaces and full stops. We wrote clues for a 'guess my pet' game and in PE everyone had a try at moving like a giraffe, elephant and even a peregrine falcon!

We have started our phonics sessions this week and in October we will be sending home 'Sound of the Week' books.

Thanks so much for helping your children settle so well into Year One!

Sarah and Sheena :)

Baby Photos Needed!

Please send in **one or two named** photos of your child when they were a baby or toddler. We are going to be talking about 'firsts' in a week or so and how we have grown and changed. We will photocopy them and return them to make sure they stay safe.

Thank you
