

# Just to let you know...

## Maths

During maths this week, the children have revised their knowledge of square numbers, cube numbers and square roots. They have gone on to apply their knowledge to a range of calculations involving the four operations and then set each other challenging questions.

## Homework

The children have brought home with them a sheet of text for them to punctuate. They need to re-write the passages, correcting the punctuation and then continuing the text on the other side.

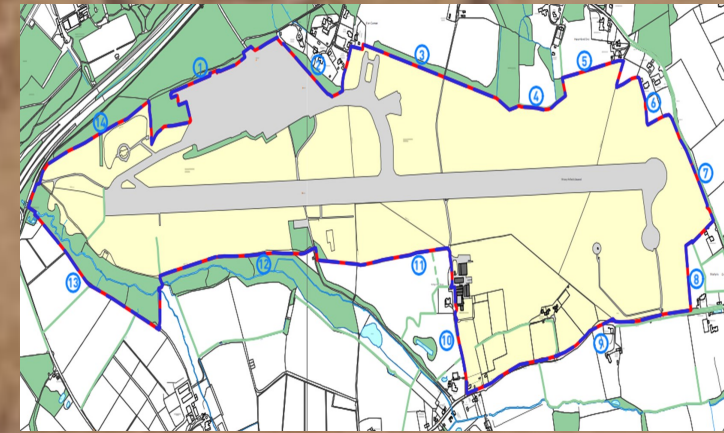

Spellings  
bargain,  
bruise,  
cemetery,  
committee,  
communicate,  
community,  
competition,  
research,  
comparison,  
Sustainable  
**Plus two of their own.**

## Literacy and Topic Work

The children have been adding the finishing touches to their report about the Guildford Plan. We have gone on to look in detail to look at the brownfield site of the disused Wisley Airfield and the children have been using their knowledge to think about how they would design a small settlement there, thinking carefully about infrastructure and transport links.

We would like the children to start to design and build a small 3D model of a possible settlement. We would be very grateful for any cereal boxes, egg boxes, any cardboard, sawdust, sponge, used matchsticks and lollipop sticks etc. We would love to start doing this next week.

## Help needed Thursday 7th July

We will be going into Guildford armed with questionnaires to help us with our Guildford Plan Project. If you are able to help us please speak to your child's class teacher.
