

English

This week the children really enjoyed working on direct speech. They started off by using comic strips and speech bubbles and then moved on to using speech marks in dialogue. We had a real focus on using a wide range of punctuation in the conversations.

Maths

We jumped back into action straight away this week with a focus on using formal methods of subtraction. From this we also looked at estimating our answers and checking with the inverse.

Topic

This week the Year 3's enjoyed learning about Archimedes, a famous Greek engineer and inventor. They experienced their very own Eureka moment when constructing and testing an Archimedes screw!

Spellings

Due to Book Week next week there will be no new spelling words. However, please continue to practise previous weeks spellings with your children.

Notices

The children had a brilliant day on Thursday with the Yvonne Arnaud Youth Theatre. They took part in a variety of workshops involving different creative Greek activities and acting. Thank you for providing the children with such brilliant costumes!

Next week is Book Week! During this week the children will be working in their House Groups. As a result we are allowing the children to wear their House t-shirts (which are normally worn for P.E). Also please remember that at the end of the week on Friday 4th March, children can dress up as their favourite book character.

Parents Evening is next week. If you have not done so already, please return your reply slips as soon as possible.
