

Curriculum News

In ICT this week the children have been working on their Minotaur and Theseus maze games. This has included designing a maze background and programming their chosen characters to move using the arrow keys. In the following lessons the children will be progressing to make different maze levels!

English

The children have been writing the instructions for their fabulous time machines this week. They have used their knowledge of imperative (bossy) verbs to produce clear and concise instructions that will enable any reader to transport themselves back in time to ancient Greece!

Maths

In maths the children have been working hard on adding fractions and recognising equivalent fractions. A particularly fun activity required the children to draw, colour and build their very own fraction walls.

Science

Continuing our work on the human body we are very grateful to the Clifford family for the loan of the human skeleton! All three classes have benefited.

Reminders

Please could you ensure that all children come into school with coats, gloves and scarves as it is expected to be very cold next week.

Just to remind you that there is an INSET Day on Friday 13th February.
