

Just to Let you Know...

Maths

In Maths this week, we have begun working on adding prices up, using money and working out how to give change, whilst working out two-step problem solving!

Have a go on the 'my maths' website to keep practising your maths skills. Select level 3 or 4, number, money and finance, introducing money.

Census

Next week the children will be taking part in a whole school census so please can you make sure they know where they were born.

Homework

Please can you make sure your child has brought in the model of their crazy invention by Monday 14th December.

Upcoming events:

Monday 14th December:

Year 4 Christmas Party

Please can your child bring their own home party clothes in to change into for the afternoon.

Tuesday 15th December:

Materials Exhibition at 2pm.

Thursday 17th December:

1.45pm Church Service. If anyone can help walk down and back please email your class teacher.

Mary Poppins!

We really hope you enjoyed the Christmas production as much as we have. The children have been fantastic and we are, as ever, immensely proud of them all!

Science

We have had a lot of fun finding out which materials go through reversible and irreversible changes when heated. The children carried out an experiment where they heated a range of substances and made two observations. First when the object had been heated and then after cooling. Why not ask your child about the experiment and which materials were reversible?

English

In English we are reading George's Marvellous Medicine. We have been imagining conversations between George and his evil Granny and practising our speech punctuation to record a conversation. Perhaps your children will tell you why they think Grandma is so nasty!
