

Maths Focus

This week we have been revisiting tens and units (place value). We donned the wigs once more and exploded numbers into tens and units (e.g. 23 is 2 tens and 3 units) We have been using our understanding of place value to order numbers to 100, and to find numbers on the 100 square. Have a go at exploding some numbers at home into tens and units. Can you add two 2-digit numbers together by adding the tens together then the units?

Just to let you know...
Year One
17.5.13

Dear parents,

We hope you got your lovely invitations to our exciting Garden Party next week. Just in case the details are not clear, please come to Year 1 at 2:00 on Thursday 23rd May for a garden extravaganza! You can take your little lovelies home with you once you have seen everything there is to see! We have been practising our country dancing more and we are looking forward to performing our dances for Reception on Monday.

Love Emily, Hannah, Sam and Misha xxx

Walking to the downs

Thanks to everyone who has offered to come with us to the downs on Tuesday morning. Fingers crossed for sunshine! If you are able to come please let Hannah or Emily know. We will be setting off at 9:15 and be back by around 11:00 :)

Bottles needed!!

As part of our new topic we need 60 small plastic bottles (ideally smaller than water bottles, around 200ml is perfect!)

If you have any please send them in with your child!
