

**Friday 28th March 2014**

## Writing Corner

We have been looking at titles / headings and captions this week. The children have used some unusual pictures to make up their own headings and captions— they came up with some good ones! Using their knowledge of Africa and relevant information from their research, the children have made their own deadly sixty Top Trump cards.

The children have enjoyed using their own Bibles to find out more about the Easter story. They made thoughtful comments and suggestions about the meaning of different Easter symbols and traditions.

## MATHS CORNER

We have really enjoyed using Venn and Carroll diagrams to sort and classify this week. Some of us have been able to classify using numbers such as - multiples of 5 odd and even numbers. Some of us have sorted 2 and 3d shapes according to colour and properties. We have also had time to investigate how to halve even numbers! Remember to look at the tens number and then the units number. Can you halve these numbers then double them again?

16 28 46 60 64 82

## Things to Remember

**Easter Bonnets - we are making 'Easter Bonnets' on Monday so if you have any old Easter decorations or ribbons etc, you could let us have please send them in.**

**We are attending the HTPD Easter Service on Thursday, please make sure your child is in full school uniform.**

**PE is again on Tuesday this week (for the last time). Please wear PE kit and bring in school shoes.**

## I'm bored box

Have a go at designing your own wildlife park—draw it, make it out of junk or turn your bedroom into a safari park! Which animals will you have, what kind of habitats do they need, how will people get around your park? Can you tell a story about the animals in your park?
