

Maths corner

We have had a super week this week learning to use different methods to add one and two digit numbers. We used coins, hundred squares and dienes blocks to add carefully and to check our answers.

$$\text{E.g. } 12 + 10 = 22 \quad 14 + 11 = 25$$

$$35 + 10 = 45 \quad 26 + 11 = 36$$

For a bigger challenge, try adding any 2 digit numbers to each other.

Maths Fun Morning 5th October

Parents are invited to visit and take part in some Maths activities in Year 2 on 5th October, straight after drop off until 10am.

All welcome

Christmas cards!

We will be sending home the FOFS Christmas card (which we will do in school.)

'Mrs Armitage and the Big Wave' afternoon

Monday 16th October

Please come to Year 2 from 2pm onwards and the children can show you their Topic, English and Maths books as well as some of the science activities we have enjoyed.

Farmers' Market Trip

On Tuesday for our trip children need to be in school at the usual time. Please make sure your child has a waterproof coat, as we will go whatever the weather! If you haven't already brought your £1 please hand it to Ruth in a named envelope. We will be pooling the money to buy things for the classes to share. We are looking forward to having our Mrs Armitage picnic on Tuesday afternoon.

Green Home Work Books

Please look out for the Home Fun Books which will come home each Friday. Books to come back to school please on Wednesday. Thank you for all the photos you sent us. It was amazing to see such great adjective games being played at home.
