

Just to let You Know

Lego Workshop

It was fantastic to see so much lego in one room! Everyone enjoyed making their own houses and then we put them together to make a huge lego city. We were very proud of how well the children worked together.

Maths - The children have enjoyed collecting their own data and making block graphs.

Next week we will be working on subtracting using the words, subtract, minus, take away, count back. We will be using number lines and practical equipment to take away.

Monday 23rd April is St George's Day. Can your child find out anything about this story?

We have had a great start to the topic 'Dragons and Castles.'

We loved reading the story of 'When the Dragons Came', making dragon dens, writing postcards to the dragons in the story and making huge collages of parts of a dragon! Next week we will be reading and writing dragon poems.

Sound of The Week

This is 'oi' and the words are oil, boil, coin, point and noise. If your child can think of any other words with 'oi' please tell us.

Toys and Toast! Friday 27th April

- Both classes have earned 10 stars or suns for a great start back so please bring in a small not too precious toy on

Wild Place

This week the children made fabulous dragon dens in the woods.
