

Just to let you know...

Year One: Beech and Oak (19.4.13)

Maths Focus

This week we have been practising number patterns. We have been reading, writing and ordering numbers to 100, and using a 100 square to find 10 more and 10 less. How many different number patterns can you make up? E.g. counting in 2s, 5s, 10s, or even 3s and 4s. Can you count backwards in patterns as well?

Next week we will be looking at time. We will be remembering how to read o'clock times and will be having a go at half past, quarter past and quarter to.

Can you name and order the days of the week and the months of the year?

Dear parents,

We started our exciting topic with a trip to the castle grounds. It was lovely and the children really enjoyed exploring with their maps. We have met Gardener George and he gave us our first gardening challenge; to find out what we need to make cress seeds grow. We have also started our sewing project inspired by William Morris. This is very fiddly to start with but once the children get the hang of this new skill we think it will be a new favourite hobby!

Love Emily, Hannah, Misha and Sam xx

If you have any plants your child would like to bring in to talk about that would be wonderful. Likewise, if you have any plants or flowers you would like to donate to our outdoor learning area they would be gratefully received!

We are hoping to take the children to the Wild Place every week now it has stopped being so cold! If you can help even for one week, please sign up on the list inside the message books or on the wall outside the classrooms. Or you can email us to let us know. Thanks! :)
