

# Just to let you know...

In Maths this week the children revisited fractions, percentages, decimals, measuring angles and finding missing angles, rounding, time and converting between units of measure. This was all accomplished in the form of a 'murder mystery' style activity which linked into our topic.

Please remember to practise your times tables over the Easter holidays!

Thank you so much for your support this term, especially over the last week. The children were so proud to show you their work on Wednesday night and having a "real" audience made their presentations so much more successful!

Our summer term topic, '5 Go To Dorset' is based on a variety of themes including adventure, survival, mystery, geography, geology, fossils and much more!!

Over the holidays it would be a good idea to read some adventure fiction, in preparation for next term's topic '5 Go To Dorset'. You could try: Anthony Horowitz's Alex Rider series, Moonfleet by J Meade Falkner, Wolf Brother by Michelle Paver, Charlie Higson's James Bond series, Enid Blyton's Castle of Adventure, Artemis Fowl by Eoin Colfer, North Child by Edith Patou, Treasure Island by RL Stevenson... to name but a few!

Next term, there will be a meeting for parents about our Brenscombe Farm trip on Wednesday 23rd April at 6.30p.m.

Thank you for all your help and support this term, we hope you have a wonderful Easter.

Love,  
Henry, Heather and Alison

This week in English the children focused on editing and improving their speeches and Power Point presentations. We discussed the use of emotive language, adjectives, rhetorical questions, and paragraphs to help structure their writing and then used these as steps-to-success to help them improve their work.
