

Oliver sharing about fossils.

Maths

This week we have been learning about adding and subtracting 2 digit numbers by splitting into 10s and 1s.

e.g. $43 + 22 = 65$

$$60 + 20 = 60$$

$$3 + 2 = 5$$

Things to Remember

Please remember that green phonics books need to be in school on Wednesday morning every week. The work we send home each week is carefully chosen and it will really help the children if you are able to support them with it. This week we have a different type of activity to practise. Have a look and encourage your children to try their best at reading and answering the questions. If you have any questions, please pop in or email.
Thank you :)

Erth's Dinosaur Zoo

A fantastic interactive dinosaur puppet show will be visiting G-Live over half term. It is a great opportunity that would fit our topic well—if you want to go along.

Details here:

English

We have heard the story of Danny and the Dinosaur, and the children have amazed us with their creative ideas for writing their own dinosaur adventure story.
