

Just to let you know...

Maths

Do you know your x from your y axis? Your bar chart from your scatter graph? The children have been busy plotting and interpreting data. Some children have generated their own data asking year 3 children what their favourite Christmas dessert was.....Can you guess what they said?

Science lesson making poo and Tudor Fayre

PE Kit
As the weather gets colder children must make sure they have the correct winter kit **INCLUDING** jumper!

TUDOR FAYRE

This week the children worked in groups across the year group to bake mince pies and biscuits, create wonderful floral displays and orange pomanders, carefully measure and mark out Merels Boards and make beautiful tree decorations as well as bags of gingerbread men! They worked Incredibly hard and were delighted with the results of their labour!

Thank you for supporting the Year Five Tudor Fayre on Thursday afternoon. The children raised lots of money which will be given to **Cancer Research UK**
