

Just to let you know...

We looked at Van Gough's 'Starry Night' during art and the children had a go at creating their own versions in mixed media.

In English we looked at Japanese poetry, in particular Haiku and Tanka. The children then had a go at writing their own poems in these styles based on Space. There are no spellings this week as we had a 50 word test which looked all the rules we've covered this half term.

- FLUFFY was a highlight of this week, with the children taking part in a wonderful range of activities. Thank you to everyone who helped!
- We hope you have a lovely half term. We have sent home an optional half term project sheet with a range of activities for the children to have a go at, if they'd like to.
- After half term, we have three exciting Space days booked at Surrey University. 5R will be visiting on Tuesday 26th February, 5H on the following Tuesday, 5th March and 5A will be going on Tuesday 12th March. Children will need to be in school uniform but won't need a packed lunch as it is being provided by the university.

Many thanks!
Bec , Henry and Alison

During science we did the last of our 3 rotating workshops. The children either investigated; shadows, refraction and reflection, or electrical circuits. Ask your child what they learnt in science this week.

This week we have continued to look at fractions decimals and percentages and the children also looked at word problems involving this.

A great website for practising tables is:
<http://www.primaryresources.co.uk/online/moonmaths.swf>
It's got a nice topic link too!
