

Maths

We have been learning about how to read and interpret data. The children had fun reading charts about a group of Chinese children and worked in small groups to make a chart or diagram to show this information. They worked really well together and had fantastic ideas.

There is a great game on this site www.bbc.co.uk/bitesize/ks1/maths/organising_data/play/popup.shtml with 3 levels which the children can progress through, that encourages them to collect and interpret data.

Year 2 News

Parent Consultations

We look forward to meeting you next week on Wed 4th or Thurs 5th March. You should have received a letter about this. Please check your child's book bag !

Wednesday 11th March

Canon Robert Cotton will be presenting Year 2 with their bible in a special assembly. Year 5 will be reading and sharing their bibles with them.

In the afternoon, Guildford College 'International students' will be visiting to share interesting facts about their countries and cultures.

English

Thursday 5th March is World book day and Year 2 will be visiting Waterstones to hear Pirate stories and take part in related activities. We will need some parent helpers to walk down at 9.15 until 11.45. Please let your teacher know if you can help.

The children have been practising their sentence skills by writing about their half-term holiday. We have also been concentrating on our handwriting and presentation skills.

Activity Corner

Have a go at making a Chinese meal! You could look up the ingredients on the computer, visit a Chinese supermarket and have a go at doing some cooking—ask a grown up to help! You could make menus and even your own Chinese calendar to give to your guests.

Topic Fun

We have enjoyed finding out about China so much we decided to stay for another week! The children looked at the atlases and learned about some key features and interesting facts. We were impressed by how much the children already knew! A lot of children knew about Chinese New Year and the Year of the Sheep!
