

Just to let you know

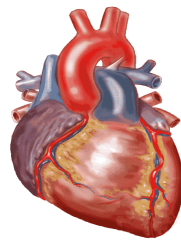

Maths

In maths, we have been looking at data handling and how to interpret tables, pictograms, bar charts and line graphs. This part of the maths syllabus is very important as the children have to be able to interpret and analyse the data they have in front of them. Please look at timetables, temperature charts and league tables with your children and ask them some pertinent questions. See if they can ask you questions about the data.

Topic

This week, the children have been learning about the important functions of the heart. They have written a comic strip style piece of writing which follows the journey of a red blood cell through the heart and around the body!

Next Tuesday (7th Feb) the children will be very fortunate to watch a live heart dissection by a consultant surgeon.

Spellings (ch words)

scheme, chorus, chemist, echo, character, chef, machine, brochure
league, tongue, antique, unique, science, scene, discipline, fascinate,
crescent.

Dear Parents,

The Baffling Bodies projects should be finished this weekend and ready to hand in on **Wednesday 8th February**.

Next Friday (10th Feb) it is FLUFFY, the children are allowed to wear non-school uniform but must dress appropriately for the activity they are completing. Furthermore, if your child's activity is off-site please ensure they have a packed lunch..

On Tuesday 7th February it is internet safety day. We would like to invite all parents to come in early at 2:15pm to see what the children have been learning about in ICT. There will then be a 'parent discussion' at 2:45pm about how to keep your child safe online.

A Polite Reminder

Please remember to make Preston Montford trip and NHM payments .
