

English

This week we have been using our plans to write our own Greek style myths. With heroes and mythical beasts battling it out, it has been quite an adventure!

Look out for Holiday Homework sheets next week, as the children will be writing a blurb and designing a front cover for their stories over the holidays.

Maths

This week in maths we have consolidated our understanding of column addition using money and we have learned to apply this when solving worded problems. Maybe you could try and use your new learning, next time you go to the shops?

Topic

The children completed their Non-Fiction books about the ancient Greeks this week. It concluded a careful process of collecting information regarding the ancient Greeks and then arranging it carefully into an information book of their own.

Time Machines

Just a quick reminder about Time Machine Resources! Please keep collecting boxes, lids, bottle tops, corks, toilet roll tubes and anything else the children may find useful. BUT, please don't send it in to school until asked, as we just don't have the space to store it. We will let children know when we need it as well as letting parents know via the JTLYK. Thanks!

Parents Evening

Parents evening letters will be coming out after half term so keep your eyes peeled. Appointments will be given out on a first come first serve basis so please get them back to your class teacher asap to make sure you get the time that suits you.

Dates are: Tuesday 6th March and Thursday 8th March

Science Week

The first week back after half term will be our school Science Week. This will provide the children with an opportunity to learn about great scientists as well as conduct scientific experiments throughout the week. The children will spend the week working in their houses rather than their classes which is great as they will get to work with children from different year groups!
