

Topic fun

We have started off the term with a whistle stop tour of Willie Wonka's famous factory.

We have had lots of fun creating our own magical sweets and chocolates and imagining what happened when we tested them on an unsuspecting Oompa Loompa! We have been using nets to create 3D sweets, learning Oompa Loompa dances, making human chocolate factories and making some edible creations of our own! Wow, what a start to term.

Spellings ...

Shape words are tricky.... Just pick one or two and learn them really well!

Face, edge, corner

Triangle, square, circle, rectangle

Pyramid, cube sphere

Happy New Year

We have been having a think about 2D and 3D shapes this week, trying to remember all the vocabulary we learned in year one and some new words too. We have been putting our knowledge to good use, making amazing 3D sweets.

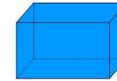

Look around you. Can you spot....

A triangular prism?

A square based pyramid?

A cuboid?

A sphere?

Charlie and the
Chocolate
Factory!

I'm bored box

Persuade mum or dad to help you with some cooking and make some fantastic sweets for your family to share. You could make the box or packet too. Tell us all about your yummy recipes!

Things to remember

Group reading starts again properly next week. Please let us know if you are not able to continue with your group or need to change days.

We are going to the wild place on Tuesday morning and the forecast is cold. Please make sure the children are appropriately dressed—thank you!

We need cardboard inner tubes for monster making next week. All contributions gratefully received.

Writing corner

Charlie had a chocolate factory. What kind of factory would you like to have? What would you make? What would the workers be like? What magical or extraordinary things would happen in your factory? Write and tell us all about it.....
