

Year One

Beech and Oak

23rd January 2015

Visit to Year 4! Wed 28th January

We are very excited to be visiting Year 4 at HT next Wednesday afternoon to share our wonderful tales that we have written! We will be back for 3 pm and would like a couple of helpers for walking to and fro, so please let us know if you can be here for 1.15 pm.

Sound of the Week

This week we are revising the sounds we have already learnt. See if you can complete the sound of the week activities in your book :))

Dear Parents,

We have had a lovely week of exploring mixed up fairy tales and creating our own! It was fun mixing up the characters, settings and events to create weird and wonderful stories. We also enjoyed hearing some tales with a twist, stories that were based on traditional tales but had a slight twist to make them a bit different. We had a go at thinking of our own ideas for story endings to make them a bit different too!

Emily and Sheena :)

House Music

Well done to all the children for joining in so well with their house music activities. Lots of fun was had by all.

Maths Focus

This week we have been practising our number bonds and finding out how many different ways to make 10. We used addition and then some of us tried using taking away to make 10.

Do you know which of these number sentences make 10?

$$4 + 6 = \quad 6 + 4 = \quad 2 + 8 = \quad 2 + 5 = \quad 1 + 9 = \quad 7 + 3 =$$

Ask your child to practise number bonds by telling them a number between 0 and 10 and they have to say the number that makes 10 (eg you say 7, they say 3!). Once you are really fast at this can you find pairs of number that make 20 together?
