

JTLYK Reception
Friday 19th January 2018

Our Journey to School

Next week, instead of walking to the Wild Place we are walking around the local area looking at different types of houses. We will also be thinking about things we see on our way to school - please can you talk together on your way next week, pointing out different landmarks that you look out for and pass along your route. It may be a friend's house, a post box, a road sign or a special tree. We will use this information to make maps!

Phonics

This week we have learned more digraphs - th, ng, ai. See activities to do in the back of the jtlyk books :)

Dear Parents

We have had great fun this week talking about our families and different homes. We even went to the Wild Place and looked for animal habitats and think we found a 'sett' a 'drey' a 'den' and mostly definitely a nest (ask your child who lives in these 'homes!'). We have also made junk model houses and built a wonderful house and garden in the Rainbow Room.

Next week we are hoping to learn about different homes around the world such as tepees and igloos. If you have a child sized tepee tent that we could borrow, we would love to use it if you could bring it in!

We are very excited to tell you that our hatching eggs will arrive w/b 26th February—see your child's book bag for the £5 contribution information.

We have found that lots of children cannot form their numbers 0-10 correctly. Please could you practise these at home eg. in the bath with bubbles, with salt on a plate, a stick in the mud or painting with water on a path.

Have a peaceful and restful weekend!

The Reception Team :)
