

# Year One

## Beech and Oak Class

### 26th January 2018

We have had another busy week in Year One. We have continued writing up our story adaptations and worked very hard on our handwriting. In maths we have been learning about several strategies to use when solving subtraction problems. We also started our hand puppets on Friday.

We are continuing to work on our hand puppets during one or two afternoons next week, if you would like to help then please do let us know and we will set a good time for you to come in. Thank you so much to those who helped to prepare the resources needed for the hand puppets, they are going to look brilliant.

Just a reminder that it is Fluffy Friday on the 2nd February. Your child will be receiving their choices by Monday 29th January.

We have our art exhibition on Friday 2nd February from 2pm. It will be held in both Year One classrooms so please come along if you can.

We hope you enjoy your weekend,

Georgie and Claire

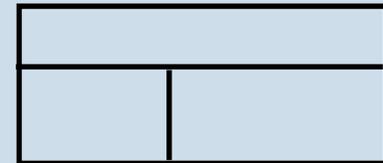

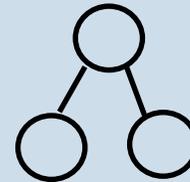

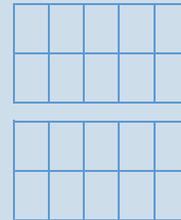

## English

In English this week we have been continuing to write up our story adaptations in our new writing books. We have worked very hard on using curly school writing and forming capital letters accurately. We have also been learning about sentence structure and what makes a good sentence.

## Maths

We have been working very hard in maths to apply lots of different strategies when solving subtraction problems. We have used the part-part whole model and bar model, as well as ten frames and number lines. Have a go at completing the task below:

$15-6= \underline{\quad}$

## RE

In RE this week we have been thinking about children who live in other countries. We also talked a lot about Claire's visit to a school in Madrid and the differences between their school and our own. After hearing and watching the biographies of other children we thought of questions we could ask them to understand them better.
