

Just to let you know...

Dear parents,
Year 4 have been hard at work once again this week. We launched Times Tables Rockstars, have learnt about magnets in science and have been writing exciting stories in English. The children are so engaged with our topics and continue to impress us with their knowledge and enthusiasm for learning.

Have a lovely weekend.
Sarah, Emily and Nick

Science

Do opposites attract? That is part of the question we have been investigating in science this week. The children have been learning all about magnets and magnetic materials, testing the magnetic properties of different objects from around school.

Maths

This week we have launched Times Tables Rockstars with the children. It is a great program designed to encourage and support children with their understanding of multiplication. They can log on using any internet enabled device and can compete against the teachers and their classmates on the leader board. As the children improve they have the opportunity to rise from Rock Wannabe to Rock Hero. Their log in details are coming home in their Reading Journals this week. If you have any problems logging on please do let us know.

Spellings

The spellings for this week are below:
accidentally, actually, early, occasionally, probably

English

We have been writing stories in English this week. Each child has been reimagining George's Marvellous Medicine with their own special recipe. We have focussed on a clear structure for the story with careful planning and the use of imaginative vocabulary. The stories are great so far and the children have loved writing them.

Homework

This week we want the children to get started on The Times Tables Rockstars program. You can log on to the site here: <https://trockstars.com/> You will need to put in the school's postcode (GU1 3QF) and then use the login details the children have been given in their Reading Journals.
