

Just to let you know...

As you know, our topic this term has been based around the natural world and we have learnt all about growth and reproduction in plants.

As part of our school PSHE programme, next week we will be introducing human development to the children. The issues that we will be addressing are: the changes that happen at puberty and how humans grow and develop into adults.

We had an amazing time at Peter Pan on Thursday!

In Maths this week, Year 4 have been redesigning the Nature Area! After making their proposals for the project—including considerations about safety and budget—the children have had the opportunity to price and measure various pieces of equipment before incorporating them into their design. We will be continuing this next week.

LEAPS

This week the children have started their LEAPS:

Learning and Development

Everybody learns at different rates and all areas of learning and development are equally important and interconnected

Enabling Environments

The environment plays a key role in supporting and extending children's development and learning

A Unique Child

Every child is a competent learner from birth who can be resilient capable confident and self assured

Positive Relationships

Children learn to be strong and independent from a base of loving and secure relationships with parents and family.

Why not ask your child to tell you all about what questions they are researching for their Leap?

This Week's Spellings

hopeful	wonderful	curiously
hurtful	painful	relative
wishful	thankful	explosive
careful	quickly	active
beautiful	strangely	

Have a great weekend! From Mel, Julia and Nick
