

# Just to let you know...

## Spanish Week

Next week we will be learning about Spain as part of the schools Comenius project.

The children will have the opportunity to find out about our partner school and interesting facts about the history and geography of the country.

If you have any Spanish artefacts at home, then please do bring

**Have a super weekend!**  
**Best wishes**  
**Nick, Alison, Tracey and**  
**Emma.**

In art the children worked in groups to plan and create a habitat poster. The children researched different environments and have put their research skills to good effect!

Please make sure you have returned the parental consent slip for our visit to the Yvonne Arnaud Theatre to see Charlottes Webb on Friday 6th July.

In group maths this week we have looked at probability and the language of probability. What is the probability of throwing an even number when you throw a dice?

In class maths we have continued to look at capacity and work out capacity word problems. How many cups of tea can you get from a teapot which has a capacity of 1.5l?

## ENGLISH

We are in the process of writing our sequels to the Lorax.

The children have started to create some fantastic stories about what they would do with the one remaining seed and the impact that this might have on the world around them.

Please note there will be no more spellings this term.
