

Just to let you know...

Year 1

27.6.14

Dear parents,

This week we voyaged across the Indian Ocean to Madagascar! We learnt about the capital city, the animals that live there and some of the foods that we get from that country. We filled in our travel logs and are very excited to find out where we will be travelling to next week! We enjoyed our gym session this week, thinking about all the animals we have learnt about in Madagascar, and moving our bodies in the way the animals do. Have a lovely long weekend! See you on Tuesday 1st July!

Love Hannah, Emily and Jacob xx

Maths

This week we have revisited arrays. An array is a group of objects organised into rows and columns to make it easier to count them, for instance in multiples. For example:

This array is 2 lots of 5, or 5 lots of 2. We can count them in 2s or 5s to find out how many there are, “2, 4, 6, 8, 10”, “5, 10”. Some of the children have been learning that this can be written as 2×5 or 5×2 . Can you roll 2 dice and draw an array of those 2 numbers, telling your grown-up what you have made. E.g. “I have got 3 lots of 5, or 5 lots of 3.” Can you write a multiplication number sentence?

Move Up Mornings

The children will have 2 taster mornings in their new classroom with their Year 2 teacher on Tuesday 1st June and Tuesday 8th July.
