

Just to let you know...

People Who Help Us LEAP

Monday morning started with a carousel of activities. Dr Katmeh taught the children how to make bandages and slings. The children assisted PC Sarah to solve the mystery of the missing cake. Lifeguard Sian talked about how to be safe on the beach during the holidays and the children played some nautical themed games. Firefighter Sue talked about fire safety and the children cooked bananas with chocolate on a BBQ. The children have also been very busy making ID badges and setting up role play areas in both classrooms.

Toys

Thank you for all your kind donations. If you are having a bit of a sort out of toys at any time we will happily take them off your hands! E.g. toy cars, jigsaw puzzles, duplo or lego etc
Thank you

Move Up Mornings

Your children will be spending the morning with their new class and teacher this Tuesday (1st) and the following week Tuesday 8th. Please do speak to your child about this at home so they are aware. We will arrange lots of opportunities to spend time with Year 1 in these last few weeks of term to help with transition.

Reception

Hazel & Willow

Maths

This week we are working on addition. Some children will do this by grouping 2 lots of objects and counting them altogether. Other will be using a number line. We will be showing these children how to count on from the larger number which will later lead to be able to do this mentally. All children will be practising to write their answers down as part of a number sentence.

Our deck chairs in the Rainbow Room need some TLC. If anyone is able to replace and attach some new fabric, we'd love to hear from you!
