

JTLYK Year One

Friday 12th June 2015

Maths Corner

This week we have been looking again at multiplication. We have been exploring arrays, times, x, groups of and lots of. We have also explored halves and quarters. **At home why not open a packet of smarties or sultanas and try to share them fairly between 2 or 4 people. Let us know what you find out about numbers.**

Guildford Library Visit

We are going to visit Guildford Library on Thursday 25th June. You should have received a letter by now along with a form to apply for a Library Card if your child doesn't already have one. We would like helpers for this trip so please come and see us if you can help.

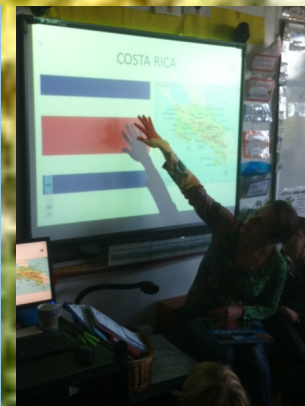

Dear Parents

Our pirate ship sailed to Brazil this week and we learned all about the rainforest, animals and food that grows there. We even learned the name of the capital city (Brasilia)!

We have been very busy this week designing our very own treasure islands complete with waterfalls, volcanoes, palm trees, coves and treasure chests! We had a super fun and very messy time making and painting our islands. Ask your child what features they made for their island.

Thank you to our lovely visitors who have come in to talk to us about a country this week and to those who have offered to come in over the next few weeks. Please let us know if you'd like to pop in for a '10 minute' chat to Year One.

Emily and Sheena :))

Special week next week!

Next week is Healthy Living Week at HTPD. Please send your child in their PE kit and trainers every day. There are two exciting workshops for the children to take part in and we will also have extra sporting activities every day.
