

JUST TO LET YOU KNOW

CURRICULUM NEWS

Maths

We jumped back into action straight away this week with a focus on using formal methods of subtraction. From this we also looked at estimating our answers and checking with the inverse.

Literacy

We have been following up on all our great work on character description from the first half term. By using our evacuee characters as a starting point for writing we have been creating our own evacuee diary entry.

Science and Topic

We had great fun in the sun this week investigating our shadows. The children went out every hour to draw around their shadow and we discussed how our shadows change both size and direction over the course of the day.

As part of our topic this week we learnt about how rationing affected children during the war and the years after the war. We thought about the clothes that we had bought so far this year and the number of coupons needed for these.

Reminders and Notices

Summer fair 12th June 6-8pm

Next Friday is the summer fair, it is a great event and we look forward to seeing many of you there!

Tea Party 25th June

Our year 3 tea party is fast approaching! In order for the day to be an exciting event we need your help once more. It would be lovely if we could have home made cakes to serve with the tea, if you would be happy to donate a cake please let your class teacher know. Also necessary to make it as real as possible is crockery. If you would be happy to lend any cups, saucer or teapots this would be an enormous help.

Sleepover 3rd July

We are really looking forward to seeing everyone at 9.30am on Friday 3rd July, at Newlands Corner. At some point during the day please would you drop off your child's sleeping bag, pillow, mat, night wear, toiletries and clothing for the next day. These need to be in a labelled bag and put into your child's classroom. On the day your child will need a day rucksack containing lots of water, snacks, a packed lunch, sun cream, sun hat and a waterproof. As with other trips the children need to wear home clothes but please ensure that these are suitable for walking in!

Spellings
Ration, multiplication, subtraction, growth, column, competition, elevation, nutrition.
