

Just to let you know...

Reception

Hazel & Willow

Challenge Week

The children have had a very busy week thinking hard about each challenge. They have worked on a selection from finding the best way to make a tower from newspaper, crossing a river with a group of 4 children and with 3 stepping stones, thinking of a way to make a boat float and watertight, finding a way to pass a hoop around a circle of children who are all holding hands and thinking carefully about a way to protect a tomato when it was dropped from a height!

Toys?

If you are having a bit of a sort out of toys at any time we would be grateful for some toy cars, animals, Duplo, Lego etc. Thank you

Butterfly news!

The butterflies are beginning to emerge. We hope to have a mass releasing of the butterflies next week.

Maths

We will be working on subtraction next week. We will be using practical equipment and using words like 'take away, subtract, how many are left? We will be recording the subtractions on white boards. Eg. $10 - 3 = 7$

Move Up morning 30th June

Before the move up morning we will be talking to the children about what it will be like in Year 1 and we will give the children lots of opportunities to ask us questions.
