

Topic fun

We have been in Uganda this week learning all about the country and what it might be like to live there. We have been thinking about things that are different, things that are similar and finding the things that make us the same.

Maths Corner

This week we have been practising doubling and halving numbers up to 20 and learning all about halves and quarters.

Play snap with some playing cards—you can only win the cards if you can double the numbers!

Find an even number of pasta shapes. Share them equally between 2 people. How many do you have each? Can you divide the number into quarters by sharing between 4 people? Which numbers can you share equally between 4? Make a list.

Nuts and bolts.

This week we have been practising spelling “ing” words again and making sure we can spell the question words too.

coming	going	playing
helping	walking	jumping
who what	where	when why
	how	????

We have been practising these joins in our handwriting.

Writing Corner

Write a letter to a friend, your Grandparents or some one you know who lives far away. Tell them all about what you have been doing and ask them some questions about what they have been up to. You might even get a reply!

Things to remember...

We are creating our own off road vehicles next week and so we need small cardboard boxes (cereal bar sized or thereabouts) and plastic bottles. Please bring in before Monday.

You should now have your parents evening appointment. Any problems or queries just pop in.

I'm bored box.

Make a little Ugandan village. Use all the things you have learnt this week! Don't forget the banana trees!
