## Maths focus

This week we have been using money. We had a dragon shop and used coins to make the right amount. We used 1p, 2p, 5p, 10p, 20p, 50p and even some £1 coins to make totals to 10, 20, 50 and £1.

Why not open a shop at your house and have a go at selling some of your toys to your family? If you are confident making totals to £1 why not set yourself some challenges like "How many different ways can you make 86p?" or "Can you make 72p only using 3 coins?"

Next week we are having a very exciting visit from an author, Naomi Kefford. She is coming in on Tuesday to read her book "When the dragons came" to the children. She will also be selling signed copies of her fantastic book. If you would like to buy a copy for £5.99 please speak to Hannah and Emily to tell them who you want it written to!

Dear parents,

We have had such an exciting week this week! We had a visit from the Pop-up Treehouse company who design and build treehouses to play in. They did a workshop with us helping us to design and make our own mini treehouses for baby dragons to play in. We had such fun thinking of different ideas. We also made clay dragons this week! They are drying over the weekend and we will paint them next week.

We all really enjoyed the music curriculum trail and thank you to those who could make it. We also enjoyed a house assembly with a music carousel in which the children got into their house groups and did various musical activities!

Red Nose Day has been a huge success. The children's costumes were fab and they had a blast walking round school choosing different activities to spend their tokens on.

Love Hannah, Emily, Misha and Sam
