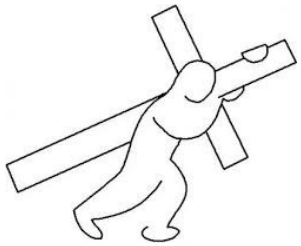
Just to let you know...



Having had the chance to practise the SPAG test, covering punctuation and grammar, the children looked over the questions where they were successful and worked on questions where they lost marks. Ask your child which areas need more practice.

Also, the children wrote a descriptive piece inspired by some classical art. Their work really evoked atmosphere and was full of great vocabulary and metaphors.

Remember that on Tuesday 26th March we will be visiting Wintershall and contemplating the Easter story. The children will need a packed lunch and warm, waterproof layers. They can wear trainers with their usual school uniform.

We will be making Easter Gardens on Wednesday—please remember to bring appropriate materials!

All the children are working hard to compile their work into a topic book. These are going to be stunning! Encourage them to make sure any unfinished topic work is finished off over the weekend.

Group Reading will not take place next week as it will be the last day of term.
Please continue to read regularly over the holidays.

Dear Parents,

Next Wednesday, all of Holy Trinity Pewley Down school will be attending the Easter service at Holy Trinity Church. We will be walking down to the church at 9am, unless your son is in the boys' choir. If your son is in boys' choir please deliver them straight to the church at 8.45 to meet Alison and Sarah for practice.

Best wishes,
Clare, Mary, Sarah, Tracey and Helen

In maths this week, we have been revisiting properties of 3D shapes and solving problems related to time, looking at timetables, calculating time intervals and converting between digital, analogue and the 24 hour clock.

Now that we have covered most of our maths topics, we are using early morning sessions to revise and practise these skills. It would be fantastic if you continued this practice at home. Have a look at the websites below for some activities to try.
