Sorry about last week, this is not déjà vu...they really are this week's spellings!

Dear Parents,

A big thank you to everyone who was able to attend the Bentley Copse meeting and to those of you who have signed up to help. If you have not had the chance to do this yet, then feel free to pop into Year 4 before or after school and write your name on the sign up sheets. Alternatively, you can email your child's class teacher and let them know when you are available.

Have a great weekend,
Mel, Sheila and Julia.

In Maths this week, we have been looking at how to use the grid method to solve multiplication questions. Year 4 have also been trying to use their problem solving abilities to use and apply their RUCSAC skills.

(Why not ask your child what RUCSAC stands for!)

If you would like to support your child further, have a look at the mymaths website. Click onto 'Level 4', 'Number', 'Multiply Divide Written' and then 'Multiply Double Digits.'

Login = pewley Password = squared

Have a go at the mathletics task for this week.

Crazy Invention!

We have asked the children to think what crazy invention they can design and make at home for our science exhibition.....eg: paper wellies, a toothbrush made of sweets or a chocolate tea pot!

Year 4 have also been writing letters to the Government's Innovation and Technology Dept. for crazy inventions, to persuade them to invest in their crazy idea!

Science Exhibition **Inviting all Parents!**

2.00pm Tuesday 1st April, in the forum.

Homework Project: Please help your child to create a 3D model of their crazy invention. This is to be displayed at the Science Exhibition. Crazy inventions are due in by Monday 31st March.

Please can you send in a range of materials for our insulation investigation next week (e.g. cotton wool, fabric, sponge, cling film etc) thank you!
