

Maths

This week we have been working on multiplication using arrays, groups, number lines, and repeated addition. We are really focussing on 2x, 3x, 10x and 5x tables as well as using different strategies to work out multiplication problems with any numbers up to 10.

Why not have a look at this website with some good games for practising times tables <http://www.topmarks.co.uk/maths-games/hit-the-button>

English

This week we have been enjoying revisiting the Easter Story. Children have done an amazing job of writing the story in their own words, focussing on key events and how they go together in the story. Some interesting words from the story to talk about are *Jesus, Jerusalem, celebration, palms, friendship, betray, deny, trial, resurrection.*

Friday 18th March 2016

Things to Remember

Easter Service

Wednesday 23rd March—9:30am—Joint Celebration at Holy Trinity Church. We need just a few parent helpers from 9:00am to help walk children to the church and back. Unfortunately there will be limited space for parents to stay at the church, as it is a whole school celebration with the juniors.

Swimming—No swimming this week.

Swimming resumes the first week back after Easter (Wednesday 13th April).

Pause Day—On Tuesday we are having a special day to celebrate Easter. We will be ‘pausing’ our usual activities, and taking time to think about the message of Easter in a different way.

Thursday 24th March—End of Term.

Please note that there will be an early pick up on Thursday at 1:30pm.
