

Maths

We have been practising all of our Maths skills this week and revisited things we learned earlier this year. How speedy are you at counting in 2s, 5s, and 10s? Can you answer questions such as “What is 2 lots of 5?” or “ $3 \times 10 =$ ”? Are you super speedy at your number bonds to 10 and 20? Try this:

English

We have been practising our reading comprehension skills this week.

Remember to talk about the books you read with your child at home.

Here are some kinds of questions you might like to ask:

- Who are the characters in the book?
- Where in the book would you find...?
- What happened in the story?
- What might this mean?
- Through whose eyes is the story told?
- What does the word 'x' tell you?
- What other words could have been used instead of 'x'?

Year 2 News

Parent Consultations

Will be on Tuesday 7th or Wednesday 8th March. You should have received letter with you appointment time. Please check your child's book bag, and let us know if you haven't received yours, and we'll let you know your time.

Please note:

The appointments times are jam packed this year—so please arrive in good time for your appointment, or we may be unable to accommodate you. To help the smooth running of the appointments if you need to talk for longer than the 10min time, we are more than happy to arrange to have another chat, just let us know.

Topic Fun

We have enjoyed finding out about China this week! The children looked at the atlases and learned about some key features and interesting facts. We were impressed by how much the children already knew! We enjoyed learning to write some Chinese characters and about the Willow Pattern story.

Thank you!

Thank you to all the parents who have shared about journeys and places around the world. We have a couple more weeks on this, before we start thinking about Easter, if you are keen to share something with the children about a journey or place.
