Just to let you know...

Dear parents,

We have enjoyed some sunshine this week and are glad that spring finally seems to be on the way! We were fortunate to have a visit from year 2 who showed us some of their fantastic work.
Please ask your child about all the great learning they have been doing this week—they've been working very hard!

Have a great weekend,

James, Rachel and Sarah

English

We have been concentrating on our crazy inventions this week in English. We have been thinking about how to advertise them by making posters. Also, the children have been writing extensive instructions on how to use their inventions, for their 'user manuals.' This has meant we've been using imperative (bossy) verbs to guide the user through.

Maths

This week we have revisited fractions. We have focused on counting in fractions as well as equivalent fractions. Ask your child to explain the numerator and the denominator! We will be continuing with fractions next week.

Homework

For homework this week, please log on to Lumio, where your child can practise their fraction skills. There is a sheet that needs signing in their homework books. If Lumio is not available to your child, there is a worksheet they will bring home.

Spellings

Thank you for helping your child to learn their spellings.

Spellings for test on 19.03.18

One, blue, night, sight, weight (and their homophones). Remember to find out the meanings as we will be putting them into sentences in the test.

Sport Relief

Next week is Sport Relief week.
Each year group will have pedometers for their PE day (Wednesday for us) and will try and get in as many steps as possible that day. We are hoping to get 10 million steps across the school by the end of the week!
The children can wear their sports kits on Friday. For example, if they play for a local team, they can wear this kit. Otherwise, they can wear their PE kit or other sportswear on Friday.
Please bring in £2 as a donation towards Sports Relief. There are also bracelets for sale for £1 from the office.
