

Year 2 JTLYK
10th March 2018

Look out for the Green Home Fun Book coming home today with links to some of our favourite maths songs.

English

The children have impressed us so much with their writing this term that we have arranged to take them to Holy Trinity on Thursday morning to share their work with some of the junior school children. Well done Year 2.

Topic Fun

Thank you to the parents/relatives who have been in to talk to the children this week.

We enjoyed very much hearing about adventures in Tanzania and Peru.

The children have also made a little something for you to enjoy on Sunday so please do rummage in the bookbags to find what they have made!

Maths

We have been practising all of our arithmetic skills this week and thinking about different methods to work out each type of question.

A big focus has been explaining what they have done, how they have done it and the patterns they have noticed in their work. We ask questions such as “How do you know?” “Can you explain what you did?” “Is there another way you could answer this question?”.

Sport Relief Friday 23rd March

The children will be raising money in support of Sport Relief by taking part in a ‘Stepathon Step Challenge’ which they will do during the school day.

You will have received a letter & sponsorship form via the book bags.

The children are also invited to come to school on Sport Relief day on Friday 23rd March dressed in their favourite sports wear and trainers.

They may choose to wear their P.E. kit, a climbing outfit or some running outdoor gear etc. Please remember the children will be joining in with playtimes as usual so no swimwear or indoor dance costumes please!
