

Just to let you know...

Reception

Cooking Corner Tomato Ladybirds

Phonics

We are going to look at our tricky words this week. i.e. The words that appear in the key word books in the yellow reading records. We will be spotting them in books, playing games with them and learning to write them. Why not look out for them in your reading books at home too. You could write a list of them to share with us if you would like to.

Maths

This week we are going to have some fun with money. We will be finding out what we remember about coins and we will be spending pennies and other coins too in our class shops. Why not find out if you can buy anything in your local shops for 1p, 2p, 5p or 10p. This might be quite a challenge!

Minibeast LEAP

This week we have been watching the caterpillars and the tadpoles grow! The caterpillars are much bigger and fatter and the tadpoles have got bigger tails but no legs yet! We have been finding out about ants and have seen some great clips on the smart boards, watching ants working together. We have talked about how we work as a team and how we help each other too.

We also had an exciting visitor who came to talk to us about bees! Hilary Carvell, a governor, popped in to tell us about bee keeping and she showed us some of special equipment she used to do this tricky and exciting job. Thanks for coming Hilary!

Thank you to all the lovely helpers that have been to the Wild Place with us or have signed up to come in the weeks ahead. We enjoy our visits and really, really appreciate your help.
