

Just to let You Know

Maths

The children will be practising the skill of using a 100 square and number line. They will be using these resources to learn the strategy to work out 10 more, 10 less, 1 more, 1 less etc, for any number.

The children have made some lovely clay dragons this week! Once these have dried, we will paint them ready for our display - watch this space!

Dragon Treasure!

Year One had a special visitor over the weekend .. 'Smoke' the Dragon wrote to ask us to find his treasure that he dropped whilst flying over the school in the weekend storms We found lots of very interesting things such as dragon scales, jewels, teeth, knight's helmet and special potions. We wrote back quickly to let him know what we had found. We hope to hear back from him again soon!

Maps

The children have been looking at simple maps. We had a go at making a map of our bedrooms and then some of us made our own town in the outdoor area. Looking from a 'birds eye view' the children will be drawing more maps next week.

Sound of The Week

This is 'ear' as in dear, gear, beard. See if your child can write the same sound a different way. Look out for different words with the ear sound and let us know.

Trip to Guildford Castle and St Mary's Church May 15th
Please sign and return the letter that comes home tonight as soon as possible.
