

## Just to let you know...

### Animal LEAP

This week our focus is going to be British animals. We are very excited about Graham from the Hydestyle Animal Sanctuary visiting on Thursday. We will also be making bread roll hedgehogs in our cooking sessions.

## Reception

## Hazel & Willow

### Gardening

We are looking forward to some students from the University of Surrey visiting on Wednesday afternoon to help the children with the Rainbow Room garden.

This means we will **not** be going to the Wild Place this week.

We plan to grow cress with the children on Wednesday too. If you have any empty yogurt pots at home, we would love to use them. Equally, if you happen to be in a Garden Centre over the Bank Holiday weekend, and would like to donate a plant we would be very grateful!

### Maths

This week we will be working on our addition skills. We will use our fingers to add, going out on number hunts and putting the numbers together and writing number sentences.

### Phonics

We're going to recap all the digraphs (two letter sounds) and key words with the children. These can be tricky but are really helpful for reading and writing. Have a look at your inky mouse books and key word books. Can you spot these sounds and words in your reading books?
