

# Just to let you know...

## SCIENCE

Year 4 have produced stunning fact files of their chosen local wildlife. They have been researching information on a variety of creatures from hedgehogs to cicadas and have worked hard to present their findings creatively.

## ENGLISH

We have been studying non chronological reports this week; looking at the features of them and how to write them. The children were able to use what they'd learnt, and write their own non chronological reports about the animal they had been researching in Science.

Dear Parents,

Bentley Copse is fast approaching and we are very thankful to those of you who have managed to sign up to support us.

### Medical Forms:

Please can you email Jo if any amendments need to be made to your child's medical form after half term.

### Transport:

A parent mail will be sent on Monday 6th June confirming final details for Bentley Copse.

Please remember that everyone is responsible for getting their child to Bentley Copse on Wednesday. We look forward to seeing you all there between 9.30 and 10am.

### Homework:

Please make sure you read regularly with your child and have a look to make sure you have all the equipment listed on the Kit List for Bentley Copse!

Thank you for all your support this term, we hope you have a lovely half term break.

Best wishes,

James, Jo, Heather & Bec

## SPELLINGS

Please look at and learn these spellings for Monday, as well as two of their chosen spellings, which will be in their reading journals

wipes	snows	handcuffs	enjoys	annoys
mixes	fusses	echoes	satisfies	scurries

## MATHS

In maths this week we have been looking at time. The children have revised 24 hour clock and have converted am to pm and vice versa. We have also completed work on reading timetables and working out time intervals, using a number line. There are lots of 'real life' opportunities to practise this (time taken for a journey, cooking start and finish time, tv scheduling) so please do try to practise, when you get a chance!

<http://www.mymaths.co.uk/>  
**Login:** pewley **Password:** squared

Go to: Shape, measures, time and timetables  
(or if you feel practise on converting 12-24 hr would be beneficial, go to 'time conversions')
