

# Just to let you know...

## Maths

This week we have been revising work on fractions, decimals and percentages. They were able to find fractions and percentages of amounts. The children went on to convert fractions to the same denominator and then solved problems involving addition and subtraction of fractions.

## Literacy and Topic Work

Literacy this week was based on their experiences in the Wild Area. The children worked hard independently to create a spider diagram of initial ideas, then worked in pairs to create fantastic sentence starters. They have all produced the most amazing first paragraphs of their narratives, where they have had a SPaG focus and a focus on vocabulary and content. The resulting writing is really high quality and an utter joy to read. We can't wait to hear the rest of their stories!

## Spellings

Plus 2 spellings of their own.

**Main/Mane**

**Meat/Meet**

**Medal/Meddle**

**Missed/Mist**

**Peace/Piece**

**Plane/Plain**

**Our/Are**

**Rain/Reign/Rein**

**Scene/seen**

**Whether/Weather**

**Who's/Whose**

## **Two Week Homework**

We would like all children to design and make a castle.

They need to know which type of castle it is. They can use cereal boxes, kitchen roll tubes, egg boxes etc. This project can be finished off over half term. Any models that are too large can be photographed. We look forward to seeing the castles on Monday 6th June.

All classes designed and made siege weapons as part of a DT project. They used marshmallows as ammunition, testing them first, before comparing their success and evaluating their performances.
