

JTLYK Reception
Friday 11th May 2018

Bring a teddy/cuddly to school on Monday!

Please bring in a teddy or cuddly as we will be making space 'rock cakes' to share whilst we tell our cuddly friends the story of 'Whatever Next'.

Our School Trip!

We will be taking the children to the 'Look Out' at Bracknell on Wednesday 13th June.
Details to follow next week.

Please save any small containers for our rocket building!

Phonics

Please continue to revisit the digraph sounds in the back of the jtlyk. Remember to point them out in words as you read with your child.

Dear Parents

Thank you for your support in helping the children to come in on their own, we have been very impressed with their independence! We have had a great week in the sunshine playing and exploring our space topic. The children are now very good at knowing the names of the planets as well as some interesting facts about them! We have learned the difference between a star and a planet and pretended to be different planets orbiting the sun.

In maths we have been learning all about o'clock times and what we do at those different times of the day. At home please support your child by noticing o'clock times during the day and asking them the time!

Have a lovely weekend.

The Reception Team :))
